

## MONOLITHIC AND MULTILAYER CERAMIC CAPACITORS

INTEC is a global supplier of ceramic chip capacitors and other specialty multilayer ceramic (MLC) products used by the electronics industry on a worldwide basis.

INTEC formulates the material used in the manufacture of its MLC's, including ceramic dielectric powders, electrode materials, resins and inks. Precise raw material characterization and tight process control ensures INTEC quality reputation as a state-of-the-art manufacturer of ceramic capacitor products.

Using a "wet" manufacturing process, INTEC offers the full range of standard EIA sizes from 0603 up to 5550, in COG X7R, Z5U and Y5V dielectrics, and from low to high voltage ratings. In order to accommodate our customers, INTEC also offers various designs and configurations for customer specific applications.

In addition to the standard products included in this catalog, INTEC designs and manufactures a significant number of custom and specialty ceramic capacitor products to address the specific needs of our customers.
